

What Our Diversity
Champions Have to Say

John Browne, Laboratory Director, speaking...

Q: Is there a benefit to diversity?

A: “As a simple business matter, this Laboratory is going to be dealing with this pool of people for the future. This is the pool that is going to be the future employees. So [diversity] has both a business aspect to it and I think it has a moral aspect to it—that we do this because it is the right thing to do, but we also do it because if we don’t do it, we’re not going to be able to get the best minds in the country and in the world to come to the Laboratory. And I think this Laboratory, as you probably will agree, is built on the quality of the people that we have.”
